

Selected findings from ATOD questionnaire (Rock Sober Confidential Survey)

N = 56 unduplicated youth

Percent who have used in past 30 days sorted by Rock Sober level

	Otter	Wolf	Bear	Eagle
Alcohol	30%	29%	13%	0%
Marijuana	27%	0%	0%	25%
LSD	3%	0%	0%	0%
Mushrooms	24%	21%	13%	0%
Methamphetamine	7%	17%	0%	0%
Cocaine	3%	8%	0%	0%
Inhalants	0%	15%	0%	0%

Percent who have used in 30 days to 12 months sorted by Rock Sober level

	Otter	Wolf	Bear	Eagle
Alcohol	60%	50%	50%	25%
Marijuana	67%	71%	38%	0%
LSD	38%	36%	13%	0%
Mushrooms	17%	21%	25%	25%
Methamphetamine	52%	42%	0%	0%
Cocaine	48%	31%	0%	0%
Inhalants	35%	23%	0%	0%

Alcohol and marijuana use declines by level are statistically significant ($p < .05$) for both tables. Declines in use of other drugs cannot be proven to be significant by statistical tests.
