

# UNIVERSITY OF MINNESOTA CHILD CARE CENTER

## SLIDING FEE SCALE - WEEKLY RATES effective 6/16/08

The fee scale at the University of Minnesota Child Center is based on age, area of enrollment and gross annual household income. The range of gross income for each tier is determined by a formula using a percentage of the State Median Income (SMI) for a family of four of \$77,395. (There are a limited number of Scholarship rates available to those with gross annual household income below 40% of SMI and who do not qualify for any other type of financial assistance for child care services. Qualification for and availability of these limited rates is determined upon enrollment and three times a year thereafter).
