“Public Libraries for Health”- Support public libraries as they expand their role in low-income communities and communities of color to include health equity

Anticipated outcome: Four public libraries become local leaders in pursuing health equity strategies

Trying Hard Is Not Good Enough

How to Produce Measurable Improvements for Customers and Communities

Mark Friedman
From Talk to Action
for Communities, Cities, Counties, States and Nations

The step-by-step process starts with a group of partners who wish to improve the quality of life in the community.

Step 1: What are the quality of life conditions we want for the children, adults and families who live in our community?

Step 2: What would these conditions look like if we could see or experience them?

Step 3: How can we measure these conditions?

Step 4: How are we doing on the most important measures?

Step 5: Who are the partners that have a role to play in doing better?

Step 6: What works to do better, including no-cost and low-cost ideas?

Step 7: What do we propose to do?

Repeat these steps each time you meet. The steps can be done in any order as long as you do them all.
