Am I able to complete an application without attending a TRIO McNair information session?

Yes...but before completing an application....

Consider these CRITICAL factors:

1. Data Security: Applications and all supporting material must be submitted in a SIGNED AND SEALED envelope if not mailed through the US Postal Service (see application cover). You are responsible for protecting your personal data! Do NOT email sensitive information (e.g. tax documents, social security number, etc.)

2. What is the University of Minnesota TRIO McNair Program? To be clear---The McNair Scholars program is a federally funded program focused on increasing the rate of academic PhDs among first generation, low income and/or underrepresented populations. The U of M McNair program consists of direct research experience with a faculty mentor on their research, graduate school preparation, and leadership and resiliency development. Programming takes place during a paid 10-week summer experience and academic year programming and support. (Note: students pursuing professional degrees: JD, MD, PA, DPT, DDT, PharD, are not academic tracks. However, scholars considering joint degrees, such as MD/PhD, PharD/PhD, etc. are encouraged to apply).

3. Eligibility: As a federally funded program, applicants are required to meet specific eligibility requirements: 1) must be from families that meet US department of Education income guidelines (https://www2.ed.gov/about/offices/list/ope/trio/incomelevels.html) and where neither parent has completed a four-year college degree or 2) students may be undergraduate from ethnic groups that are underrepresented in graduate school in the field they wish to study. Must be a U.S. Citizen or Permanent Resident to apply.

We cannot stress enough the importance of applicants making time to attend a McNair information session and/or connect with McNair team (http://www.cehd.umn.edu/trio/mcnair/). Information session will provide:

Tips on completing a strong application:
- Verify program eligibility requirements
- clarify intent of the McNair program
- develop rapport and application support with McNair team
- provide appropriate referrals if not eligible
The TRIO McNair Scholars Program is a graduate school preparation program designed to help low-income, first-generation, and underrepresented college students develop the skills and motivation necessary to successfully pursue doctoral education. Each year the University of Minnesota McNair Scholars Program selects twenty college students to participate.

McNair Scholars is a TRIO program funded by the United States Department of Education and the University of Minnesota. The McNair Scholars Program and the University of Minnesota are committed to the policy that all persons shall have equal access to its programs, facilities, and employment, without regard to race, color, creed, religion, national origin, sex, age, marital status, disability, public assistance status, veteran status or sexual orientation. This application is available in alternative formats upon request.
Goals:
- To increase the rate of doctoral program completion by first-generation, low-income college students and students who are underrepresented in specific graduate programs.
- To generate the higher-level academic and research skills necessary for success in graduate school.

Services:
- Twenty paid [$3,000.00] ten-week summer research apprenticeships with a university or college faculty mentor whose research interests coincide with those of the McNair Scholar. Additional $500 dollars awarded fall semester for scholars completing fall program requirements.
- Weekly seminar on strategies for applying to graduate school, including:
  - graduate entrance exam (GRE) preparation
  - successful selection and application to graduate school
  - financing graduate studies
  - preparing a successful undergraduate research project proposal
  - discipline-specific research and writing skills
  - ethical issues in research
- Upon successful completion of the McNair Program, Scholars become eligible for graduate school application fee waivers and graduate school fellowships at some institutions.

Potential student participants:
- Twenty students from U.S. public and private colleges who have completed or have in progress at least 60 semester credits; preferably 4 courses in related field of research interest.
- Full-time registered students, sophomore status or above, who have completed at least four courses in their planned major.
- Two-thirds of the students must be from families that meet U.S. Department of Education income guidelines and where neither parent has completed a four-year college degree.
- One-third of the students may be undergraduates from ethnic groups that are underrepresented in graduate school in the field they wish to study.
- Preferred preparation: creative, independent, second or third year undergraduates with good writing skills and a GPA of at least 2.75 who possess intellectual curiosity and who are interested in conducting research under the guidance of a faculty mentor.

McNair Faculty:
- Assistant Professor rank or higher, in all disciplines, who are interested in guiding the summer research experiences of high-potential, first-generation and minority undergraduates.

Supported by:
- U.S. Department of Education
- Office of Academic Affairs, University of Minnesota
