Child Welfare Visitation Supervisor & CTSS Skills Practitioner (Minnesota CarePartner & Families in Transition Services)

Duties would include, but are not limited to; supervising and documenting court ordered visitations for county child protection cases and family law cases between noncustodial parents and their child(ren).
In addition, parenting education and skills are also offered in some family cases upon the social workers request. Supervised visitation and parenting education in the Twin Cities and surrounding areas will be offered as an in-home service or at an appropriate community setting.
Supervised visitation and parenting education in St. Cloud and surrounding areas can be offered at our visitation center, as an in-home service, or at an appropriate community setting.

Review DAs, develop ITP’s, provide services as outlined in client’s ITP, maintain client caseload, and encourage client retention and regular communication, coordinate services with other health care providers to ensure that client receives adequate services, provide adequate documentation of services, i.e., complete progress notes, document contact with families or other providers, participate in department clinical supervision and other meetings, including a monthly group training session, perform other duties as assigned.

Required: Bachelor’s or Master’s Degree in Social Work, Marriage and Family Therapy, Psychology or related field. A criminal background check is required for all applicants. In some cases, the transportation of a child may be required, therefore, it is required that all applicants have a reliable vehicle with valid and up-to-date insurance.

In particular, we are looking to hire bilingual staff, especially Spanish, Hmong, Somali and Swahili

To apply: Please send resumes to Katy@mncarepartner.com
